1- Virtual mobility for students next Wednesday 13, organized by Latvia

The coordinating teacher from Latvia, Jelena Maskalova, informs us about the programme and the teachers responsible for the activity had already been prepared but that problems were arising since one of them was confined and ill due to covid19; In spite of everything and due to the impossibility of changing the date, it was going to take place on the agreed date of October 13 from 10 a.m. to 1 p.m. The organizing teachers of this activity have sent us the program and warned us that the day before they will send the zoom link for the videoconference. The students have been working on the activity preparing posters about the dangers of the internet, which is the topic of this mobility. They will also do a collaborative activity by the twinspace
